

Top number is the count of respondents selecting the option. Bottom % is percent of the total respondents selecting the option.	Poor	Below Average	Average	Above Average	Superior	TTL
Chasing Cell Phones	2	2	15	55	71	145
Aaron Edens	1%	1%	10%	38%	49%	

SIGNIFICANT COMMENTS:

an absolutely amazing, phenomenal class. I learned so much, and by far the best class that I took at CNOA ever. Mr. Edens was very funny as well and has such a wealth of information

good class felt it was something i will use

Good class, but lots of technical info to cover in only 4 hrs.

Good class, it will be useful in my investigations

Great information for a 4 hour class. Would have liked more time on physical tracking of phones.

Great instructor and good information.

He was very knowledgeable about the subject matter. He made his presentation interesting.

I am experienced in this field. Approximately 15 percent of the information taught was wrong; or the purported short cuts will lead to Appellate Court decisions against Law Enforcement.

I learned a lot about cell phone investigations and how to obtain information from them.

I took 5 pages of notes on this class. I walked away with a much deeper understanding of cell phones and what can be done relative to cell phones in various investigations.

Informative and engaging. Wish next time the instructor could speak more on complex investigations involving cell phones, and the analyzation of such.

Learned a lot. The instructor gave us several tools to use to take on cell phone analysis.

Need more time...added humor which made it not only interesting, but entertaining.

No a good instructor, he only has very basic telephone knowledge. More interested in talking about himself than teaching

Relevant, useful and up-to-date information.

The case laws from this course was very informative.

The instructor was great and revealed that he is a subject matter expert.

The title would be more correct if it were Cell Phone Forensics.

This information was useful and something that I would use again.

This was a very good class. The information was current and will save our team time in using the most current tools in dealing with cell phones. They are essential to our cases.

This was an excellent course. The instructor was very knowledgeable. He gave simple explanations to complex investigative ideas.

Very knowledgeable and answered questions everyone had in regards to cellular phones

EVALUATION:

This was a new class for the institute. It had has been presented in the Regions for the past year or so, receiving very good reviews. At the Institute, attendance was very high with 345 total students. The ratings were also high, with 87% rating the class as Above Average or Superior. Almost all comments were positive, but there was one negative that indicated that the instructor provided information that could jeopardize future prosecutions. As with many comments, it remains unknown if the evaluator actually knows what he or she is talking about. The comment has been highlighted for the Instructors review.

I think this class was a great addition to the Institute. Cell phones are tools of the trade when it comes to narcotics trafficking and Aaron does an excellent job in presenting the information in an understandable style.

Course Title	Poor	Below Average	Average	Above Average	Superior	TTL
Chasing Cell Phone – Aaron Edens	0	0	6	31	42	79

Significant Comments:

Amazing teacher; put complex issues into understandable and approachable information.
Excellent
Excellent class, picked up a few new tricks and solidified a few old ones.
Excellent instruction.
Gave up to date material and useful information regarding cell phones
Good class. I would have liked to see a break down on a case or two on how the information was used. I use cell phone data and at times know there is more I can get out of it, but just looking for some samples.. GOOD class.
Good info. Please spend less time on the history of cell phone laws and more time on tricks and other website stuff. Need to know more on how to unlock password protected cell phones, sites to get subscriber info, maybe an updated handout on law enforcement back lines...
Good instructor, good information that i had no idea about.
Got lots of information from class. Instructor very knowledgeable
Great class. I work with cell phones a lot and this information will help me. Awesome instructor very knowledgeable.
Great class. I learned some important information that we have not been doing to strengthen our cases.
Great information, wish the class was longer.
Great instructor.
Great instructor. He did a fantastic job
Had a wealth of knowledge to share and unfortunately not enough time. I could take a 2 day course from him alone. Made everything about phones relevant to investigations and was very cop friendly with technical concepts.
He knew his information. He could have been better taken his time explaining all of the tech stuff
I really enjoyed this class, I would like to attend his class if he has a longer one.
I thought the instructor presented the info very clearly, and I was able to retain a large amount of the course.
I would like to have seen some search warrant shells.
Instructor made a dry subject very interesting. His practical applications for the information as well as the limit of the information were very valuable. There was so much useful information that I know I missed a bunch. I would gladly see this class again. He also explained the current state of the law for searching a cell phone in a way that made the technology and the law make sense to me. Finally, and I'm a lawyer!
The information presented was great. I thought the class would be more geared towards obtaining orders, search warrants, and the applicable use by investigators. It seemed more aimed at forensic employees.
The templates on the thumb drive should be word documents instead of PDF.
This class is emerging and needs to be given more time. Cellphones are now always involved in dope dealing and methods to get ahead of the dealers should be given much more time.
Unfortunately this was only a 4 hour block of instruction. This could have easily been twice as long. Instructor was very up to date and knowledgeable.
Very good information and critical topic. I would like to have had more information on getting into phones and extracting data rather than information on cell tower design.
very good instructor he had alot of knowledge
Very informative class, easily the most new information obtained by me of any class.
Very informative class. Great class content.
