NEWS RELEASE

Title: POLICE TECHNICAL Courses Hosted by WSIN in 2015

Short Title: WSIN Hosts POLICE TECHNICAL Courses for 2015

Date of Release: August 20, 2014

Western State Information Network (WSIN) has announced it will be hosting all of POLICE TECHNICAL courses in 2015. The training location is at the WSIN Headquarters in Sacramento, Calif.

WSIN is best known for its work in de-confliction, said Thomas Manson, CEO of POLICE TECHNICAL.

“WSIN’s reputation as a law enforcement partner is undisputed and POLICE TECHNICAL’s relationship with the network enhances us both,” Manson said.

POLICE TECHNICAL first began to work with WSIN in the mid-2000s. The company collaborated with narcotics groups in California, which led to working with de-confliction groups, analysts, and, finally, to WSIN.

Manson said that WSIN has worked with the company for many years and it knows firsthand the benefit of POLICE TECHNICAL classes for its personnel.

“WSIN is a great partner and having a secured facility in Northern California allows us to assist officers in a five-state region,” Manson said.

WSIN is part of the Regional Information Sharing Systems (RISS). RISS includes six other Information Networks throughout the United States. In addition, WSIN serves Alaska, California, Hawaii, Oregon, and Washington. These areas are among the biggest supporters of training POLICE TECHNICAL provides.

The network collaborates with local, state, federal, and tribal law enforcement member agencies, assisting with investigations and prosecutions. It also deals with analyzing criminal activity and developing analytical products, according to RISS’s website.

POLICE TECHNICAL is a national law enforcement training company located in Terre Haute, Ind. The company currently employs 17 instructors, who teach and maintain 15 courses in five Certification Tracks.
